

Version 1.1

The following information was gathered following the guidance from the Bar Standards Board and using their draft questionnaire. Members of Chambers and members of staff were given the opportunity to provide data in February 2019. Those statistics permissible are shown below. Note that no grouping with fewer than 10 members is displayed unless all members of that group specifically consented. If more responses are received the data will be updated.

Total Responses	42	46.2%
Consent to use of data	39	92.9%
Specific low-data consent	37	88.1%
Population	91	

Not enough information was received in order to be able to display information by Ethnic Origin

Not enough information was received in order to be able to display information by Sexual Orientation
